I COLORI

Scopo di questo album è quello di portare il bambino alla denominazione di undici colori tra principali e secondari.

Per facilitare il suo compito abbiamo utilizzato il sistema di “Programmazione per unità di apprendimento”. In questo tipo di programmazione l’apprendimento di ogni unità avviene progressivamente e gradualmente.

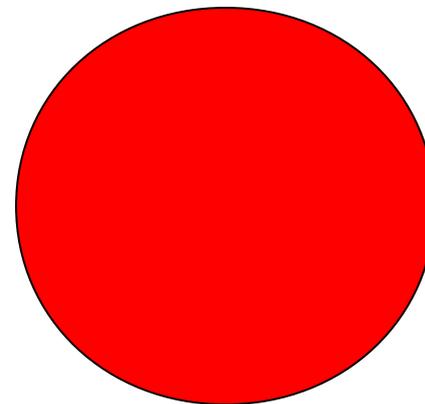

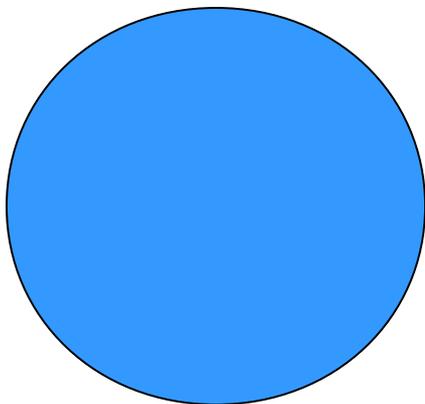

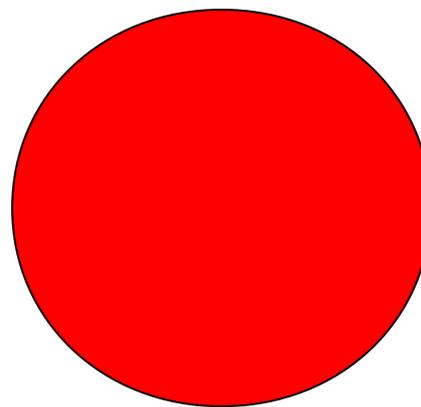

Ogni unità è formata da:

1. **tre - quattro schede di associazione per uguaglianza o similitudine.** In queste il bambino deve associare semplicemente i due colori uguali;
2. **alcune schede a scelta multipla incrociata.** In queste deve saper associare, per caratteristiche simili, i vari elementi della scheda, nel nostro caso deve associare i nomi ai colori. Se il bambino ancora non ha acquisito le capacità di lettura, sarà l’educatore stesso a leggere il nome dei colori che il bambino dovrà indicare.
3. **alcune schede a scelta libera per la verifica.** In queste il bambino dovrà colorare quanto richiesto.

ETÀ MENTALE DI RIFERIMENTO

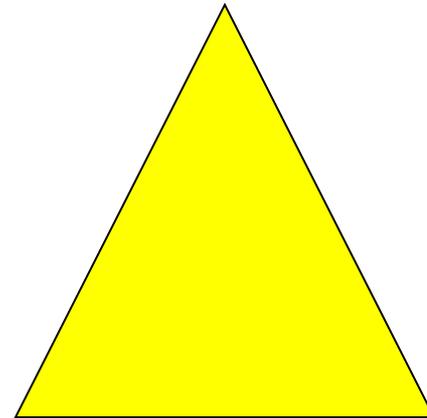

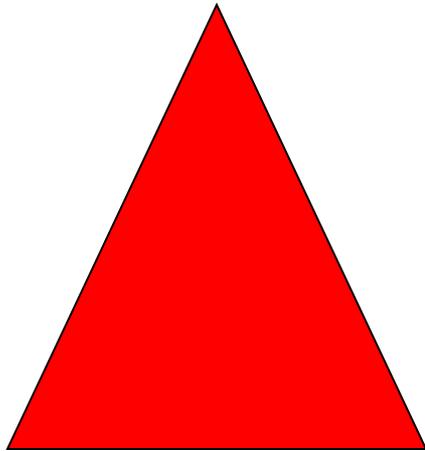

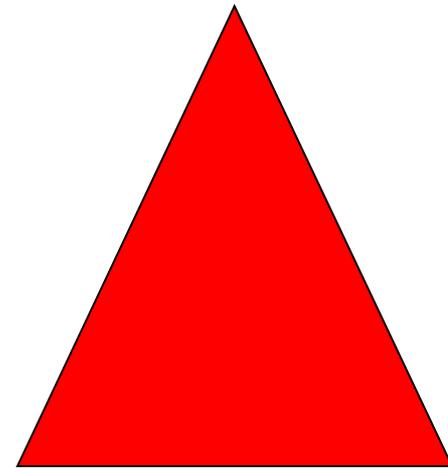

Cinque anni.
