**Vol. I**

## PREMESSA

Obiettivo di questo lavoro è stato quello di rendere la lettura accessibile a un numero il più vasto possibile di bambini. Sappiamo infatti che la lettura analitica, la quale implica la sintesi e l'analisi sillabica, presenta delle difficoltà notevoli insite nei processi percettivi e logici che sottendono a questo tipo di attività.

Quando infatti il bambino si ritrova a leggere una sillaba, partendo dalla conoscenza delle consonanti e delle vocali, è costretto ad unire l'elemento fonico della consonante che, in qualunque modo la si pronunci viene avvertita sempre unita ad una vocale, con un altro elemento fonico presente nella parola scritta, un'altra consonante o una vocale. In ogni caso è costretto mentalmente ad eliminare dalla consonante la parte fonica riguardante la vocale, prima di unirla agli altri elementi presenti nella parola. Ad esempio per leggere "pane" il bambino è costretto a pensare al suono della "p" che può essere pronunciata come "pi" "pu" o in altro modo ancora, ma che in ogni caso non è mai un suono puro e chiaro. A questo deve poi associare la vocale "a" sottraendo il suono "i" o "u". La stessa cosa deve fare per la sillaba "ne". Quando si trova davanti a dei digrammi o trigrammi questa attività diventa ancora più complessa in quanto per leggere ad esempio "stra" è costretto ad unire suoni diversi "su" "tu" "ru" "a" sottraendo ad ogni consonante il suono vocalico.

Anche nella scrittura, in cui si attua l'analisi uditiva delle parole, l'operazione è altrettanto complessa pertanto sono necessarie capacità intellettive di buon livello.

Nella lettura sillabica invece il bambino pronuncia, associa e memorizza i suoni delle sillabe in maniera chiara ed inequivocabile in quanto ogni configurazione grafica ha un suono preciso e netto. Per tale motivo nel programmare una lettura estremamente facilitata abbiamo scelto il metodo sillabico, in quanto, tra l'altro, per i motivi sopradetti consideriamo la sillaba e non la consonante l'elemento base e quindi il primo mattone di ogni parola.

Per favorire al massimo la chiarezza, l'apprendimento, la memorizzazione e l'utilizzazione delle sillabe, ognuna, nel metodo proposto in "Leggo anch'io" viene sottoposta a un percorso cognitivo ben preciso, che è stato individuato mediante continue verifiche sul campo.

## 1° tipo "Presentazione della sillaba"

La presentazione della sillaba di cui si vuole l'apprendimento, avviene con tutti i caratteri ed è ripetuta più volte nella stessa pagina. La sillaba viene collegata quindi all'immagine e alla parola che la contiene nella parte iniziale, ripetuta più volte con diversi segni grafici, in modo tale da dare al bambino subito il senso del legame che esiste tra questa, l'oggetto e la parola scritta.

### UTILIZZAZIONE

Prima fase.

Per utilizzare correttamente questo tipo di scheda l'educatore, indicando con il dito, leggerà la sillaba scritta in vari caratteri stimolando poi il bambino a pronunciare il nome dell'immagine corrispondente e della parola ad essa collegata che verrà quindi letta in modo globale. Se il bambino non conosce il nome dell'oggetto rappresentato sarà l'educatore stesso, per le prime volte a suggerirlo.

Seconda fase.

In questa sarà lo stesso allievo, aiutandosi anche con l'immagine corrispondente, a pronunciare più volte la sillaba presentata e quindi la parola ad essa associata.

Pa    pa <i>pa</i> <i>Pa</i>		PALLONE Pallone pallone Pallone
Pa    pa <i>pa</i> <i>Pa</i>		PAPÀ Papà papà Papà
Pa    pa <i>pa</i> <i>Pa</i>		PALETTA Paletta paletta Paletta

## **2° tipo: Ricerca della sillaba bersaglio.**

In queste schede, utilizzando sempre tutti i tipi di caratteri, la sillaba da apprendere "sillaba bersaglio" dovrà essere evidenziata e riconosciuta, mediante un'attività di confronto, in mezzo ad altre sillabe simili per suono e forma grafica.

### **UTILIZZAZIONE**

L'educatore evidenziando con il dito la "sillaba bersaglio" posta in alto, chiederà al bambino di ritrovarla tra le altre e di denominarla.

		Cerca le	PA	
PA	PO	PA	PI	PA
SA	SI	TE	PA	CA
TA	RA	RU	PA	FA
		Cerca le	pa	
pi	pa	pa	to	ra
fa	pa	la	da	pa
ru	pe	da	zi	pa

### 3° tipo: Lettura della sillaba con tutti i caratteri.

La sillaba viene presentata per la lettura con tutti i caratteri e con la vocale che segue o precede la consonante, in modo tale che il bambino si abitui a pronunciarla in entrambi i modi.

#### UTILIZZAZIONE

L'educatore si limiterà a far leggere al bambino tutte le sillabe presenti nella pagina.

#### **4° tipo: lettura di parole con l'aiuto di immagini.**

Con questa attività l'allievo imparerà a leggere le parole che contengono la sillaba in esame. La lettura verrà facilitata dalla presenza di numerose immagini che suggeriscono il contenuto della parola e dal fatto che le parole da leggere sono composte da elementi sillabici che il bambino già conosce.

Leggi

Papà

Papa

Pappa

## 5° tipo: lettura di frasi.

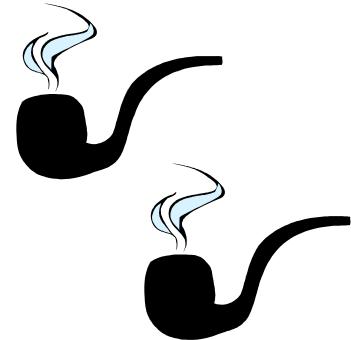

In queste schede vengono presentate, corredate sempre da immagini, delle frasi semplici che contengono sia la sillaba in oggetto che le sillabe già conosciute dal bambino.

Pipa

Leggi

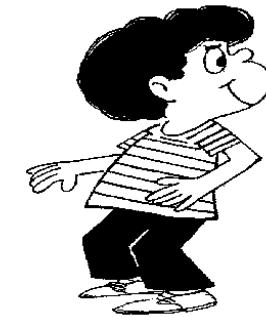

e pipe

Papà

e Pippo

Pipa

e pepe

## **6° tipo: leggi e associa.**

La finalità di questa attività consiste nello stimolare le capacità di comprensione della lettura. Pertanto l'allievo dovrà attuare un processo di associazione tra le parole lette e le immagini corrispondenti.

pappa

papà

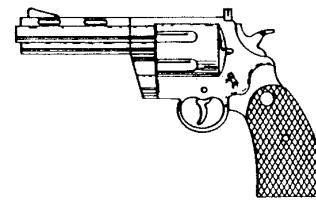

papa

## 7° tipo: associazione fonetica.

Il bambino attraverso un gioco fonetico dovrà associare la sillaba alle parole che la contengono nella parte iniziale. In tal modo egli eserciterà le funzioni di analisi del suono della parola.

PA come  
pa come  
*pa come*

### 8° tipo: lettura di parole senza senso.

La sillaba in esame, unita alle sillabe già presentate con la stessa consonante, dovrà essere in queste schede letta in parole "senza senso", in modo tale da completare l'apprendimento, avendo eliminato non solo l'immagine che poteva suggerire la parola, ma anche il suo significato.

PE PO

*pe pa*

PA PE

*Pe po*

PA PE

pa pe

*pa pe*

PO PE

*Pe pa*

PE PO

*O pa*

A PO

O PE

*O pa*

Come si vede l'apprendimento di ogni sillaba viene effettuato attraverso varie attività associative, discriminative, di confronto e di utilizzazione. In ogni caso non dovrà mai essere presentato il suono della consonante, in quanto ciò complicherebbe l'apprendimento senza apportare alcun beneficio. Potranno invece essere effettuate altri giochi fonetici che utilizzano le sillabe tra i quali indichiamo:

### **1° Ricerca di tutte le sillabe collegate ad una consonante:**

ad esempio:

PA- PE- PI -PO - PU; TA- TE- TI -TO-TU; LA- LE-LI-LO-LU ecc....

### **2° Arriva un bastimento carico di ...**

In questo gioco i bambini dovranno a turno ricercare tutte le parole che cominciano con una determinata sillaba. Ad esempio arriva un bastimento carico di PA (patate, pazzi, papà, padelle ecc.)

### **3° Le parole incatenate.**

Un bambino dirà una parola e gli altri, a turno, dovranno pronunciarne un'altra che inizia con la sillaba finale della parola detta. Ad esempio PANE - NEVE-VELA- LAMA- MAMMA- MARE- REMO- MOBILE ecc.

### **4° Sottolinea la sillaba.**

Vengono scritte alla lavagna o sul quaderno due - tre sillabe. Il bambino dovrà sottolineare le sillabe pronunciate chiaramente dall'educatore o dagli altri bambini.

In questo programma di lettura facilitata sono presentate quasi tutte le sillabe, la conoscenza delle quali può permettere la lettura di ogni testo. Nel caso in cui un testo presentasse una sillaba sconosciuta, si consiglia di suggerire semplicemente la sua lettura che sarà appresa rapidamente.

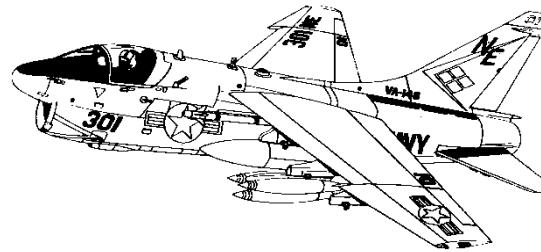

Questo tipo di programma di lettura sillabica facilitata potrà essere utilizzato da tutti i bambini normali e non che abbiano almeno quattro anni di età mentale.

## **SCRITTURA**

Nel caso in cui il bambino presenti delle capacità di prescrittura sufficienti si consiglia di far scrivere sul quaderno sia le sillabe che le parole che di volta in volta incontra nelle schede del quarto, quinto e sesto tipo. La scrittura sarà effettuata utilizzando sia lo stampatello maiuscolo che il corsivo.

Nel caso in cui il bambino non avesse ancora capacità di prescrittura sufficienti si consiglia l'uso di schede di prescrittura mentre contemporaneamente potrà utilizzare la video scrittura o dei cartoncini in cui siano presenti le sillabe conosciute dal bambino. Con tali cartoncini il bambino potrà formare le parole presenti nelle varie schede.
